

## **A Guide to Preparing CD Artwork**

### **CD Specification**

Unless otherwise stated all our CDs are supplied in Jewel cases with a 4 page colour booklet and rear inlay tray, with artwork on the CD surface. If you are creating your own artwork then you can find all the necessary templates on our Guides Page online.

If you would like Recordings 4 Bands to create your CD artwork then please provide the following information.

### **Booklet Front Cover**

Your CD needs a title which will be on the front cover along with the name of your Band. The front cover usually features a photograph of the Band although it is entirely your choice.

### **Booklet Inside pages**

The booklet which comprises of front cover, 2 inside pages and rear page can be used for any information you like. The inside pages might feature names of everyone involved in the recording or a history of your band for example. We can also include photopgraphs.

### **Booklet Back Cover**

The back of the booklet is visible on the left when you open the jewel case to access the CD. A lot of bands will write a brief introduction along with a short bio of their Band Leader and other key people. Don't forget to also include details of your website and how to contact the band if you want.

### **CD Surface**

This will feature the album title along with the name of your band and logo if you wish.

### **Rear Inlay**

The Tray inlay is essentially the information on the back of the jewel case and usually this will be the track list. Most bands also include the name of their Band Leader along with any soloists.

### **Further Information**

If you need any more information or clarification then please contact a member of our team who will be happy to help you.

Please provide the information required for your artwork at the earliest opportunity to avoid any delays in production.
